Middlesex University Dubai

Middlesex is a dynamic university with a reputation for innovation and excellence in teaching and research.

Currently there are over 2,500 students from 90 different nationalities studying at our Dubai campus and our academic credentials are outstanding. All over the world Middlesex University works in partnership with top institutions who, like us, believe in excellence, innovation and ambition.

The 2003 institutional audit by the Quality Assurance Agency gave Middlesex the highest rating possible, and a survey in 2006 ranked the University second in the UK for its excellence in teaching. We are also one of very few UK universities to be awarded three consecutive Queen's Anniversary Prizes, and one Queen's Award for Enterprise. Our research profile is good and improving; a significant investment in research was announced in 2004.

Locally Middlesex University Dubai is accredited by Knowledge & Human Development Authority (KHDA), government of Dubai.

Middlesex University is a global university committed to meeting the needs and ambitions of a culturally and internationally diverse range of students, by providing challenging academic programmes underpinned by innovative research, scholarship and professional practice.

At Middlesex University Dubai our main aim is to prepare students to be professional, skilled individuals fitted for the modern world, committed to lifelong learning and able to contribute to the communities in which they live and work.
